

Laajala TD, Raghav S, Tuomela S, Lahesmaa R, Aittokallio T, Elo LL: A practical comparison of methods for detecting transcription factor binding sites in ChIP-seq experiments

Supplementary table 1 - The qPCR-validated regions in STAT6 study

The presence of the STAT6 binding motif (V\$STAT6.01) was determined with the Genomatix MatInspector tool using Matrix Library 8.1 and optimized matrix similarity (default settings).

| Chromosome | ChIP-seq maximum read overlap in ChIP sample | ChIP-seq maximum read overlap in control sample | Confirmed with qPCR | Genomic location | Presence of STAT6 binding motif |
|------------|--|---|---------------------|------------------|---------------------------------|
| Chr11 | 16 | 1 | yes | intragenic | yes |
| Chr8 | 10 | 1 | yes | <10kb upstream | yes |
| Chr16 | 8 | 1 | yes | <10kb upstream | no |
| Chr3 | 7 | 2 | yes | <10kb upstream | no |
| Chr16 | 7 | 1 | yes | <10kb upstream | yes |
| Chr6 | 6 | 1 | yes | intragenic | yes |
| Chr21 | 6 | 1 | yes | intragenic | yes |
| Chr3 | 6 | 0 | no | intragenic | no |
| Chr3 | 5 | 1 | yes | intragenic | no |
| Chr4 | 5 | 1 | yes | <10kb upstream | yes |
| Chr8 | 5 | 1 | yes | intergenic | yes |
| Chr19 | 5 | 0 | yes | <10kb upstream | no |
| Chr14 | 5 | 0 | no | intragenic | yes |
| Chr15 | 5 | 1 | no | intragenic | no |
| Chr6 | 4 | 0 | yes | intragenic | no |
| Chr8 | 4 | 1 | yes | intragenic | yes |
| Chr16 | 4 | 1 | yes | intragenic | yes |
| Chr16 | 4 | 1 | yes | intragenic | yes |
| Chr10 | 3 | 2 | yes | intragenic | yes |
| Chr16 | 3 | 0 | yes | intragenic | yes |
| Chr10 | 3 | 0 | no | intergenic | no |
| Chr2 | 2 | 3 | no | <10kb upstream | no |
| Chr10 | 0 | 0 | no | intragenic | no |
| Chr12 | 0 | 0 | no | intragenic | no |
| Chr20 | 0 | 0 | no | intragenic | yes |
